

IT'S NOT A STORY

From a distance I can hear the Cry
Voices of Despair and Sorrow
From Women, Men and even Children
Devastated by the monster AIDS...

AIDS is not a story
AIDS is not a Fiction
Brethren Let us come together
And give Hope to the Ailing Ones

Children, innocent and tender
Are orphaned and their future shuttered
Men and women due to condemnation
Are dying without knowing Christ - future hope

Maybe you are not infected
Don't close your ears; we are all affected
Brethren, let us break this silence
And give love, the love of Christ,
to the ailing ones.
